

**REDISTRICTING/FAIR ELECTIONS COMMITTEE
GDLWV 2021 Annual Report Submission
April 29, 2022**

The Greater Dayton League of Women Voters' Redistricting/Fair Elections Committee was created in February 2021 to support the Fair Districts OH collaborative between Common Cause OH and the OH League of Women Voters by engaging and educating residents using printed materials, presentations, etc. throughout the community. These efforts were undertaken to ensure fair Congressional, Ohio House and Senate district maps were drawn according to the reforms passed in 2015 and 2018, submitted, and vetted with robust public engagement encouraged in the process.

The following charts detail the work of the committee.

Redistricting Commission Opportunity for Public Testimony	Sunday September 12 Washington Township Rec Plex West	800 (estimate)
Fair Districts Rally	Tuesday September 21 All day Columbus	325
TOTAL		1,625

2022 Plans for the Redistricting/Fair Elections Committee

- To keep this topic front and center in the minds of the LWVGD membership, we are planning a series of public education redistricting programs after the proposed late summer primary and before the general election November 8.
- We will use library facilities around the county including Dayton Metropolitan Public Library and five of its branches; the Washington-Centerville Public Library's Woodbourne site; and Greene County Public Library branches in Beavercreek and Xenia.
- Programs will be held in late September and early October as voters begin to consider early voting.
- We will utilize the expertise of League members to create a panel to discuss the history of gerrymandering; a recap of the 2021 process; and the impact of the adopted maps on our neighborhoods.
- We will take direction from the State League as to the need to again collect signatures to amend the State Constitution and create as outlined by Chief Justice Maureen O'Connor, "a truly independent, nonpartisan commission that more effectively distances the redistricting process from partisan politics."
